**FRIGID FLUID CO.**

www.frigidfluid.com | FRIGID FLUID CO. | sales@frigidfluid.com
A BRIEF HISTORY OF Frigid Fluid Company

Frigid is born when Adelbert R. Krum starts the business under the name of Chicago Chemical & Manufacturing Co. Operating out of a 14 x 14 barn, he made and marketed an embalming fluid to which he gave the trade name "Frigid."

Incorporation of Frigid Fluid in the State of Illinois.

President Jennie M. Krum is known as an innovator in the funeral home industry. She increases business and expands the product line.

Frigid Fluid Company officially replaces Chicago Chemical & Manufacturing Co. as the name of the firm to coincide with the "Frigid" trade name.

Invention & Patent of the "Master" model lowering device.

President Franklin D. Roosevelt is buried using the Frigid "Standard" Lowering Device.

Invention & Patent of the "Imperial" model lowering device.

US patent 1109538 awarded to Frigid Fluid for the invention of the casket lowering device.

1892 1901 1902 1914 1917 1945 1949 1955
Age has its advantages...
 Especially for a business focused on personal relationships.

Founded in 1892, Frigid Fluid Company is one of the oldest manufacturers and suppliers to the deathcare industry. Family owned and operated through five generations for over 125 years, Frigid Fluid has the experience and ability to provide their customers with superior products and dependable service.

- **1959**
  - Invention & Patent of the mobile lowering device stand known as the "Streamliner."

- **1982**
  - Development & Introduction of the "Premium" line of embalming fluids: Premium Cavity and Premium Jaundice.

- **2010**
  - Development & Introduction of the Frigid "Silicone Technology" line of embalming fluids: 36 Plus, Perfect Tone, Natural Tone and X-20.

- **2013**
  - 5th Generation of the Family takes helm with Brian Yeazel, President

- **2013**
  - Frigid attains 'CE' certification on its world-class line of casket lowering devices

- **2016**
  - "Silitech" trademark awarded to Frigid Fluid for its top-selling line of "Silicone Technology" embalming fluids.
THE POWER OF SILITECH®
FRIGID SILICONE TECHNOLOGY

SILITECH
Silicone lubricates the arterial system to help distribute formaldehyde deeply into the capillaries, thus promoting:

• Deeper Diffusion
• Wider Profusion
• Enhanced Saturation
• Superior Periphery Preservation

THE BENEFITS OF SILICONE
Silicone is extremely stable:
• Able to withstand extremes of heat and cold.
• Acts as an insulator to protect the formaldehyde and other chemicals within the embalming solutions.
• Unaffected by aldehydes, alcohol, lanolin and other embalming chemicals.

Silicone is very non-reactive:
• Does not dehydrate
• Colored dye remains stable in the presence of silicone.
NO SHIPPING HAZMAT FEES
Frigid Fluid’s arterial and cavity fluids are classified as a limited hazard during transport under current US shipping specifications. These fluids can be shipped by common carrier under the classification ORM-D. This reduces freight costs and does not require the imposition of a hazmat fee by the freight company.

PHENOL-FREE FLUIDS*
Frigid Fluid’s embalming products are totally free of phenol. Phenol is a hazmat classified chemical that is highly toxic and known to cause lung irritation.

*Only Pharos Cavity contains phenol

LIMITED HAZMAT FEE PRODUCTS
Only these supplemental products incur a hazmat fee:

• STOP
• Safe Powder (25 lb. container)
• Feature Builder (only applies to 1 gallon size)
• Pharos Cavity

SDS DOCUMENTS
Our Safety Data Sheets can be obtained from the support section of our website - www.frigidfluid.com.
SILICONE BASED ARTERIAL FLUID

Frigid Fluid’s “Silicone Technology” enhances the results you can attain with arterial fluids. The silicone advantage is delivered through a family of four arterial fluids.

36 PLUS® (33 INDEX)
1-36PL (24 case of 16 oz / 473 ml bottles)

Our Best Selling Fluid.
36 PLUS® assures preservation and pleasing results with both normal and difficult cases.

It is particularly effective on frozen, decomposed and other challenging cases.

The formulation combines:
- The lubricating, diffusing and penetrating advantages of Silicone.
- The addition of “Frigid STOP” to prevent the causes of tissue gas.
- A water conditioner to neutralize calcium ions and soften hard water.
- A drainage enhancer.

Resulting in a body that:
- Retains moisture and color for a very natural appearance.
- Is free of tissue burn and “pruning”

Note: 36 PLUS® is not recommended for a prep room attached to a septic system for which we recommend lanolin-based Tissue Guard 32.
**PERFECT TONE** (18 index)
1-PERFTONE (24 case of 16 oz / 473 ml bottles)

A lower index fluid that offers:
- The distribution advantages of silicone.
- The softening effect of lanolin.
- A pliable, smooth, life-like appearance.
- A medium firm texture.
- No dehydration risk.

**NATURAL TONE** (20 index)
1-NATTONE (24 case of 16 oz / 473 ml bottles)

Silicone Technology combined with:
- Mild but very effective buffers.
- The addition of humectants.
- A cosmetic effect that furnishes a uniform, life-like texture and color to the skin with a natural feel that is soft and smooth.

**X-20** (20 index)
1-X20 (24 case of 16 oz / 473 ml bottles)

A blend of six ingredients:
- Including the highest silicone content.
- For a thoroughly embalmed body of mild firmness.
- Displaying a natural, soft, feel to the skin.
- That has uniformity of color with a slightly pinkish tint.
LANOLIN BASED ARTERIAL FLUIDS

LANOL-TEX (22 index)
- The Frigid arterial fluid with the highest level of lanolin.
- Plus two modifiers to furnish pliable tissue for a body of medium firmness.
- Ideal where the soft, smooth skin texture supplied by lanolin is desired.
- Superb for dry, emaciated cases needing protection against dehydration.

1-LANOLTEX 24 case of 16 oz / 473 ml bottles

TISSUE GUARD 32 (32 index)
- For use in place of “36 Plus” where the prep room is attached to a septic system.
- Armed with a particularly effective wetting agent that assures thorough distribution and deep penetration of body tissues for lasting preservation.
- Incorporates a special blend of humectant and dye to give a warm, even cosmetic effect, not the harsh effect sometimes obtained from unmodified dyes.
- Results in a firm body that retains some flexibility and natural feel.

1-TISSG32 24 case of 16 oz / 473 ml bottles

GENERAL PURPOSE ARTERIAL FLUIDS

FLO-TONE (25 index)
- A unified, multi-balanced, general purpose arterial fluid for medium-firm results.
- Contains three disinfectants and three preservative agents.
- Modified to prevent dehydration, giving a soft appearance.
- Special buffers hold the pH close to the optimum for good formaldehyde action.
- A blend of dyes furnish a natural skin tone without blotching.

1-FLOTONE 24 case of 16 oz / 473 ml bottles

EOTONE (27 index)
- Mid-to-high range index for when slightly more firmness is desired.
- Contains buffers and humectants to modify the formaldehyde level.
- Results in a pleasant even, light pink skin tone coloration.

1-EOTONE 24 case of 16 oz / 473 ml bottles
DIFFICULT CASE FLUIDS

STANDARD (32 index)

- Recommended for the most difficult cases.
- It also is a solid, higher index fluid for normal cases.
- Formulated and buffered to control dehydration.
- Contains special salts that enhance the action of its preservative results.
- Suited for “hypo-injecting” areas of the body not receiving adequate distribution.

1-STANDARD 24 case of 16 oz / 473 ml bottles

RIGID (35 index)

- Well suited where a firm, well-preserved body is desired.
- Includes a unique blend of buffers, humectants and plasticizers to odify the harshness of formaldehyde.
- Ideal for aggressive applications, especially advanced cancer (counteracts nitrogenous waste) and decomposition cases.
- The fluid of choice when there will be an extended period of time between death and final disposition.
- Can be added to an arterial solution to increase firmness.
- Frigid’s highest index arterial fluid.

1-RIGID 24 case of 16 oz / 473 ml bottles

CAVITY FLUIDS

PREMIUM CAVITY (7 index)

- Low odor cavity fluid providing:
  - Excellent deep penetration.
  - Effective preservation.
  - Broad spectrum disinfection.
- Contains “Frigid STOP” to control tissue gas and vermin.
- Excellent disinfectant properties of glutaraldehyde.

1-PREMCAY 24 case of 16 oz / 473 ml bottles

CAVITY 55 (8 index)

- A low odor cavity fluid with especially good disinfection and deodorizing capability.
- Features four proven preservatives and disinfectants.
- Quickly penetrates to areas where putrefaction and odor production are taking place and stops them.

1-CAV55 24 case of 16 oz / 473 ml bottles
CAVITY FLUIDS

5-PURPOSE CAVITY (8 index)

- Preservation with disinfectants and deodorizers.
- Usable as a surface pack to quickly reach the areas of decomposition so it can act to neutralize the sources of odor and putrefaction, thereby effectively preserving the tissue.
- A much safer bleaching agent than the usual phenol-containing bleaches.
- Low formaldehyde level means the skin will not pucker when used hypodermically to preserve areas lacking distribution and firmness.

1-5PUR 24 case of 16 oz / 473 ml bottles

DRY GUARD (21 index)

- Quick action with excellent penetration and preservation resulting in tissue that is very firm and dry.
- As a surface pack, helps to firm and preserve areas of skin slip and spongy tissue.
- When used externally or just under the skin, it will help to bleach darkened areas and reduce swollen areas.

1-DRYG 24 case of 16 oz / 473 ml bottles

CAVITY KING (25 index)

- Quick action with excellent penetration and dispersion for maximum protection.
- At 25 index this cavity fluid furnishes excellent preservative power to protect against visceral putrefaction and odor.
- Highly recommended when circulation is destroyed:
  - Cancer, gangrenous, and ulcerated tissue.
  - Other disease damage.
  - Crushed or mutilated bodies.
  - Especially applicable for treating infant cases where arterial embalming is difficult to accomplish.

1-CAVKING 24 case of 16 oz / 473 ml bottles

PHAROS (36 index)

- Pharos cavity fluid is our highest index fluid (index 36).
- Provides rapid set-up and is extremely effective on posted cases.
- Formulated with additional organic germicides.
- Used by embalmers who prefer the exceptional tissue firmness provided by the high formaldehyde content.
- Contains phenol.

1-PHAROS 24 case of 16 oz / 473 ml bottles
FOR JAUNDICE TREATMENT

COLOR GUARD 1 JAUNDICE FLUID
- Intended for use with a low to moderate index arterial fluid and cool water.
- It chemically reacts with bilirubin to change its yellow coloration to a red or rosy tone.
- The yellow of jaundice can be significantly reduced, especially in visible body areas.
- Color Guard 1 does not contain preservative properties.

1-COLOG I  24 case of 16 oz / 473 ml bottles

PREMIUM JAUNDICE (8 index)
- Includes multiple agents to promote distribution throughout the body for effective flushing and bleaching of bilirubin, the pigment responsible for the yellowing tissue.
- Contains a low level of formaldehyde (8 index) so that large volumes of diluted fluid can effectively be used to flush the body.
- Counters the effect of formaldehyde on bilirubin, which many embalmers feel is the cause of “green” bodies that sometimes develop after embalming.
- Even when large volumes of diluted fluid are injected, water-logging is not a problem because of the moisture balancing chemicals.

1-PREMJAUN  24 case of 16 oz / 473 ml bottles

SKIN TONE ENHANCER

ROSE COLOR TONE DYE
- Non-formaldehyde, concentrated dye.
- Compatible with all arterial and supplemental fluids.
- Produces a natural, long-lasting, life-like color and cosmetic effect.

1-ROSECOL  24 case of 16 oz / 473 ml bottles

FOR EXCESS MOISTURE

LEAK GUARD
- Specifically designed to prevent leakage of body fluids and to pull excessive moisture from the body through the combination of an effective pore closer, a proven moisture reducer, a tissue hardener, and an effective firming agent for jaundice cases.
- To assist the preservation of the body, a powerful, non-formaldehyde disinfectant (glutaraldehyde) is included so that Leak Guard can be injected directly into tissue or used in conjunction with an arterial fluid.
- Especially applicable with badly bloated or water-logged bodies.

1-LEAKG  24 case of 16 oz / 473 ml bottles
### MOISTURE RETENTION/ANTI-DEHYDRATION

#### TISSUE AID
- Formulated with natural colloids that are particularly effective moisture retainers.
- Highly recommended for emaciated and dry skin cases, when moisture loss from the body needs to be delayed, filling out tissue sunken by dehydration, and embalming under very low humidity conditions.
- Tissue Aid restores the cells to the proper level of hydration resulting in recovery of a more natural appearance and form, skin that regains a soft, smooth texture, and a more natural, pliable, life-like feel to the body.

**1-TISSAID**
- 24 case of 16 oz / 473 ml bottles

#### HUMECTANT
- Co-injection for cases showing signs of dehydration.
- An emulsion of several special oils and moisturizing agents help to return sallow tissue to a life-like appearance with excellent cosmetic skin texture and body pliability.
- Wrinkling is controlled and a proper moisture level is restored.
- The moisture loving ingredients of humectants work to prevent further dehydration by delaying the escape of water from surface tissues and restoring the moisture level in deeper tissues.
- In addition to its ability to rehydrate tissue, Humectant modifies the harsh action of formaldehyde and softens the color of the dyes used in arterial fluids.

**1-HUMECT**
- 12 case of 16 oz / 473 ml bottles

### CIRCULATORY FLUSH/ANTI-CLOTTING

#### SOLVOL (6 Index)

**PRE-INJECTION**
- As a pre-injection it is excellent for a mild fluid flushing of the arterial and capillary system to allow better distribution and penetration of an arterial fluid.
- Useful as a bleaching agent, it penetrates readily into affected tissues to reduce and flush out objectionable discoloration.
- Special ingredients help prevent water-logging by promoting good drainage.
- Superior fluid for embalming infants: its low formaldehyde content, modifiers and mild formulation provide adequate preservation without harming delicate tissues.

**1-SOLVOL**
- 24 case of 16 oz / 473 ml bottles

#### PLASMA FLO

**PRE-INJECTION**
- For embalming bodies when congealed and clotted blood is anticipated. Clears and prepares the vascular system for optimum fluid distribution and penetration.
- Its special alkaline formula loosens and breaks up coagulated blood so that drainage can be established even in difficult cases such as burned or frozen bodies, or when extensive chemotherapy has taken place.
- As a co-injection fluid, Plasma Flo can be used with all aldehyde type arterials to enhance drainage, distribution, and penetration with a milder action by the arterial fluid.

**1-PLASFLO**
- 12 case of 16 oz / 473 ml bottles
FREE FLO
PRE-INJECTION
- Improves distribution and drainage by freeing capillaries of congealing blood.
- Used with an arterial fluid, it markedly improves the ability of the diluted fluid to displace the blood and allow the preservatives to do their work.
- Enhanced distribution of the arterial fluid into all areas of the body results in a uniformly embalmed body with even dye coloration on the surface of the body.
- Mildly alkaline, Free Flo buffers the arterial to an effective pH to prevent grey bodies.
- Special additives act to soften the potentially harsh effects of formaldehyde apparent in some arterials by retaining proper moisture thus giving the body a more natural feel.

1-FREEFLO  12 case of 16 oz / 473 ml bottles

WATER QUALITY
WATER-CLOT GUARD
- For outstanding control of hard water salts, which are frequently the cause of a blotchy appearance and fading color.
- Hard water salts work against the embalmer and the arterial fluids by:
  - Reacting with some of the dyes to reduce or eliminate their color.
  - Reacting with anionic surfactants to negate their distribution and penetration ability.
- Water/Clot Guard neutralizes calcium salts to prevent further clotting and to assist the break up of clots and congealed blood.

1-WATCLOTG  24 case of 16 oz / 473 ml bottles

TISSUE GAS/VERMIN INFESTATION
STOP
- STOP is the chemical of choice for controlling the sources of tissue gas.
- Two powerful disinfectants penetrate deeply and rapidly to the source of tissue gas.
- On contact, a small amount of STOP destroys anaerobic bacteria and kills all maggots or insects which may have infested the remains, eliminating vermin-caused embarrassment.
- A special additive provides lubrication so tissue does not dry out or become brittle.

1-STOP  24 case of 16 oz / 473 ml bottles

FORMALDEHYDE NEUTRALIZER
SPILL GUARD
- Developed for spills of arterial and cavity fluids.
- Immediately neutralizes formaldehyde and glutaraldehyde so no harmful vapors can be produced.
- Spills can be flushed away or soaked up depending on local regulations.
- Contains no regulated chemicals and is not designed to neutralize phenols or chlorinated hydrocarbons.
- Highly recommended to have available in all prep rooms.

1-SPILLG  1 gallon / 3.79 liter bottle
SUPPLEMENTALS

DISINFECTANTS & DEODORIZERS

ORIFICE GUARD

- An effective disinfectant for pre-embalming treatment of the eyes, mouth, nose, and other parts of the body where surface disinfection may be necessary.
- Contains a generous amount of isopropyl alcohol, as well as additional disinfectants, for broader germicidal coverage.
- Can be applied using cloth or spray.
- Spray trigger available upon request (1-SPTRATRIG).

1-ORIFG  16 oz / 473 ml
1-ORIFGGAL  1 gallon jug / 3.79 liter

X-O ODOR NEUTRALIZER (All-Natural)

- An all-natural odor neutralizer, X-O is safer than chemical alternatives.
- While some products mask unpleasant odors, X-O eliminates odors permanently.
- Spray into the air or directly onto a surface to obtain an odorless environment.

2-XO8  8 oz / 237 ml
2-XO16  16 oz / 453 ml
2-XOG  1 gallon / 3.79 liters

MOISTURE RETENTION

VELVA CREAM WITH ANTISEPTIC

- Used externally to retain moisture in the skin, giving it a smooth, velvety texture, and to eliminate wrinkles.
- Velva Cream can also be employed with cotton when forming mouth features to prevent dehydration of the lips and on the surface of eye caps to retain moisture in the eyelids.

1-CREAVELV  16 oz / 453 ml

LANOL CARE

- Lanolin-based spray that helps keep tissue moisturized and life-like.
- Provides an excellent base for the application of cosmetics.
- Ensures powder will never cake or crack on the skin, or look pasty.
- Results in skin with a smooth, natural look.
- Will protect bodies from freezer burn if stored in a cooler.

2-LANOCARE  5.5 oz / 163 ml
### SEALANTS

#### SEAL-O-TITE

- Seal-O-Tite is a liquid product for permanently sealing incisions against leakage.
- Forms a liquid-tight and highly flexible seal when dry.
- Brush over post-mortem seams, surgical incisions, and other wounds.
- Can be used as an adhesive during restorative work and filling large wounds.
- Thicker than Skin Seal.

**1-SEALOTITE** 1 pint / 568 ml jar

#### SKIN SEAL

- Liquid sealant used to cover sutured or glued incisions.
- May be applied as a base for cosmetic application where tissue is compromised or weeping.
- Excellent for sealing cuts where hair is present.
- Clear drying.
- Thinner than Seal-O-Tite.

**1-SKINSEAL** 8 oz / 237 ml jar

#### FRIGID STA-SEAL

- Seals incisions to prevent seepage.
- Sets instantly and shapes itself.
- Adheres flawlessly and dries quickly.

**2-STASEAL** 9.2 oz / 272 ml bottle
**2-STASEALG** 1 gallon container

#### THANO SEAL

For use on incisions, lacerations, abrasions, punctures and skin slips. Provides a complete seal to dry tissue that eliminates leaks. Easy peel and stick application.

**2-TTHANOSEAL01** 2” x 20’ Roll
**2-TTHANOSEAL02** 4” x 20’ Roll

#### ARON ALPHA

- Effective way to seal lips, eyelids, small punctures, and incisions.
- A high-strength, instant adhesive that dries clear and colorless in less than 45 seconds.

**2-ARONALPH** five 2 gram bottles
SUPPLEMENTALS

EXTERNAL/SURFACE TREATMENTS

PAULEX POWDER®

- A fine powder containing paraformaldehyde.
- Use it to pack orifices, eliminate odors, or as a hardening compound.
- Also for cancer cases, edema, gangrene, infection, burning, drowning, and stillbirth.
- It is great for cremations, disinterment, autopsies and body bag transport.

1-PAULPOWD1 1 lb / 454 g jar
1-PAULPOWD25 25 lb / 11.3 kg jar

CONTACT EMBALMING SPRAY

- One of the strongest embalming sprays available.
- Use on bedsores, gangrene, putrefactive areas, cancer, floaters to embalm and deodorize on contact.
- Can be applied using cloth or spray.
- Spray trigger available upon request (1-SPTRATRIG).

1-CONTACT 16 oz / 453 ml

VIS-O-GUARD GEL

- Developed for cases requiring deep penetration and odor control.
- A surface embalming material of high viscosity designed to cling to tissue.
- Deodorizes and preserves putrid tissue as well as areas of the body that lack arterial distribution.
- Use to preserve the contents of viscera bags.
- Vis-O-Guard Gel’s pink color allows it to be utilized on the face.

1-VISOGUARD 2 lb / 0.907 kg jar

FORMALIN CREAM

- A surface embalming cream that penetrates deep into tissue to preserve and disinfect.
- Control tissue hardness precisely by varying the quantity used and the period it is in contact with the body.
- Light pink color will not stain or bleach so it can be applied to the face with confidence.

1-CREAFORM 1 lb / 0.454 kg jar

SAFE POWDER

- A good choice for external embalming.
- Can be applied over gangrene, cancer sores, mutilation, etc.
- For autopsy cases apply a pound or more of Safe to the cavity walls and among viscera.

2-SAFEDRUM25 25 lb / 11.3 kg pail
**HEXAPHENE**

- Great for embalming and dehydrating upper and lower limbs.
- External application should be covered by plastics, vinyl or plastic wrap.
- Once dressing area is properly covered, body is able to be dressed over affected area.
- Treats traumatic conditions, cancer, gangrene, etc.

2-HEXAPHEN 2.5 lbs. / 3.78 L

---

**TISSUE TREATMENT & FEATURE BUILDING**

---

**FEATURE BUILDER**

- Congeals rapidly to make tissue building quicker and easier.
- Expands more fully to eliminate uneven application problems.
- Especially useful for rebuilding damaged facial features.

1-FEATBGAL 1 gal / 3.78 L
1-FEATB 16 oz / 473ml

---

**FEATURE BUILDER SOLVENT**

- Used to thin Feature Builder and clean instruments.

1-FEATBSOL 16 oz / 473 ml

---

**FRIGID HARDENING COMPOUND**

- Three actions in one preparation: absorption, hardening, and disinfection.
- Indispensable in cases where circulation has been totally destroyed.
- Apply directly to affected parts to remove odors caused by sores, cancer, gangrene, or abscesses.
- Add cold water to use as a bleaching paste to eliminate surface discoloration.

1-HARD25LBS 25 lb / 11.3 kg box
1-HARD50LBS 50 lb / 22.7 kg box

---

**FRIGID AUTOPSY COMPOUND**

- Absorbs excess water and firms tissue.
- Very quick acting.
- Preserving agents make it extremely effective in destroying pathogenic germs.
- Dustless, pleasant-smelling, and contains no wood products.

1-AUTOP25LBS 25 lb / 11.3 box
1-AUTOP50LBS 50 lb / 22.7 box
SOAPS & CLEANSERS

KREME PROTEC SOAP
- Cleans, protects and deodorizes with the softness of lanolin.
- Use it on hands before and after embalming to help cleanse.
- Applicable for bathing bodies and to shampoo hair, wash tables and instruments, etc.

2-SOAPKREM-CH  Cherry scented, 1 gallon (3.78 L)
2-SOAPKREM-LE  Lemon scented, 1 gallon (3.78 L)

WAVICIDE-01
- Fast acting, 30-day thorough working glutaraldehyde solution.
- Sporicidal, virucidal, bactericidal, tuberculocidal, pseudomonacidal and fungicidal.
- Effective against HIV (AIDS).
- Has a mild, fresh scent.
- Recommended for disinfecting embalming instruments and tools.
- It is 2.5% aqueous glutaraldehyde sterilant/disinfectant, pH 6.3 to 6.4.

2-WAVICIDE  1 gal / 3.78 L

EPI-CLENS SURGICAL SCRUB FOAM
- Foaming Alcohol-based surgical scrub with antiseptic and added moisturizers. Latex free.
- Can be mounted on wall with dispenser.
- Scrub and Dispenser are sold separately

2-SURGSCRUB  8 oz / 227 grams can
2-SURGSCRUB-D white dispenser rack

MAXIMA
- A germicidal detergent that disinfects and deodorizes.
- Formulated for institutional use, this product can be used to disinfect floors, walls, metal surfaces, medical devices and other nonporous surfaces.
- Effective in hard water up to 400 PPM.
- Maxima is effective against HIV (AIDS), and is staphocydal, pseudomonacidal, virucidal, fungicidal.
- Will neither leave a film nor dull floor finishes.

2-MAXIGALL  1 gal / 3.78 L

DRY HAIR CLEANER
- Developed to clean dirt, hair dye, cosmetics and tobacco stains from hair, mustaches, eyebrows, and fingers.
- Apply with cotton or small spray bottle for maximum cleaning effects and control.

2-HAIRCLEA  16 oz. bottle
FRIGID CALVARIUM CLAMPS
Stainless steel screw-type calvarium clamps. Now featuring a Slotted/Phillips Combo Screw for added convenience.

2-CALVCLAM 20 per package

NATURAL EXPRESSION MOUTH FORMERS
Made of clear vinyl, Natural Expression Mouth Formers are ready for fast, easy installation. No pre-shaping or pre-forming is necessary.

2-MOUTFORM-N 12 per box

DENTAL SIMULATORS
Flesh colored plastic, formed to replace the natural curvature of dentures. Small molded spurs hold lips in place, helping to retain the normal curvature of the mouth.

2-DENTSIMU 12 per box

DENTAL REPLACER
Armstrong mouth formers are soft and pliable, yet tough and durable. The flexible wire molded into each mouth former makes them easy to bend and shape. Trim with scissors to meet your exact specifications.

2-MOUTFORM-A 12 per box

OCULIST EYE CAPS
Oculist eye caps will bond to the eye on contact with moisture. Perforated surface guarantees secure closure of the eyelids.

2-EYECAPS45S small flesh, gross
2-EYECAPS45L large flesh, gross
2-EYECAPS47S small clear, gross
2-EYECAPS47L large clear, gross

PERFECTION EYE CAPS
Eye caps are round with needle pointed perforations to hold lid in place. Available clear only.

2-EYECAPSPC-S-G small, gross
2-EYECAPSPC-M-G medium, gross
2-EYECAPSPC-L-G large, gross
PREP ROOM SUPPLIES

FRIGID TROCAR BUTTONS
Frigid's own finely threaded trocar button with a sharp point. Works in tandem with the Frigid Trocar Applicator, to form a perfect seal.

2-TROCBUTT-F gross

FRIGID TROCAR APPLICATOR
Stainless steel applicator that perfectly interlocks with Frigid Trocar Buttons for a secure fit. Makes application process a breeze.

4-GOV T available each

TROCAR BUTTONS
Snip-tip trocar buttons are flesh colored and compatible with 2-prong trocar button applicators.

2-TROCBUTT-ST gross

2-PRONG TROCAR BUTTON APPLICATOR
Allows for quick and easy application of any trocar button that requires a 2-prong applicator.

2-TROCAPPL each available

AV CLOSURE
Anal/vaginal plug.

2-CLOSURAV

MULTI-CLOSURE TROCAR BUTTONS
Use Multi-Closure buttons to close openings caused by I.V. lines, hypodermic incisions, trocars, tracheotomies, and feeding tubes.

2-TROCBUTT-M 50 per box

CRANIAL CAPS
Our cranial caps absorb leaks and protect against stains.

2-CAPSCRAN 12 per box

SUTURE THREAD

COTTON SUTURE THREAD
2-THRECOTT7 7 cord cotton, 1 lb., white.

COTTON SUTURE THREAD
2-THRECOTT7B 7 cord braided cotton 1 lb., black.

LINEN SUTURE THREAD
2-THRELIN-RT7 7 cord linen, 1 lb. white, right twist

WAXED LINEN SUTURE THREAD
2-THRELIN-WX 6 cord waxed linen, 1 lb.
## PLASTIC SHEETS AND COVERINGS

### PLASTIC SHEETS
36” x 84” (91 x 213 cm) white vinyl sheets. 5 mil.  
2-SHEEPLAS available each

### SANAPRON SHEETS
Paper on one side and plastic on the other. Sanapron sheets protect and absorb at the same time. Ideal for covering couches, embalming boards, or floors. 40” x 90” (102 x 229 cm).  
2-SANASHEE 12 per box

### BIOHAZARD BAGS
Our red hazardous waste bags are available in two sizes: 24” x 33” (61 x 84 cm), 15 gallon (56.8 L) and 31” x 43” (79 x 109 cm), 35 gallon (132.5 L). Each bag is imprinted with “Infectious Waste” in both English and Spanish.  
2-BAGHAZA, 15 gal (58.8 L), 25/roll  
2-BAGHAZA-L, 35 gal (132.5 L), 20/roll

### COTTON ROLLS
One pound rolls 100% absorbent cotton.  
2-COTTROLL 1 lb. (.454 kg) roll

### VISCERA BAGS
Safely store visceral organs in our 3-mil polyethylene viscera bag. Indispensable for autopsy cases. Each bag is 25” x 30” (64 x 76 cm) and comes with a tie.  
2-BAGSVISC 12 per box

### STRETCHER SHEETS
Disposable tissue/poly sheets for maximum absorbency and strength. 40” x 90” (102 x 229 cm)  
2-SHEESTRE-B 50 per case

### WEBRIL® PREP TOWELS
Webril® Prep Towels from Frigid are 100% non-woven cotton fabric. One towel will absorb up to 10 times its own weight in liquid, and adheres to itself when folded, making an excellent “instant bandage.” Towels come in 8” x 15”.  
2-PREPTOWE 50 towels per roll, available by roll or in cases of 8

### WEBRIL® PREP TOWEL DISPENSER
Wall mounted dispenser for Webril® Prep Towels. Holds one roll.  
2-PREPTOWE-R available each

### ASPIRATORS

#### HYDRO ASPIRATOR

The Hydro Aspirator features automatic vacuum to prevent contamination, and reversible flow for flushing trocar without disconnecting from faucet.

**R-ASPIHYDR**  hydro aspirator

#### ASPIRATOR EXTENSION

**R-ASPIHYDR-EXT**  aspirator extension, 4”

#### ELECTRIC ASPIRATOR

Housed in a non-breakable plastic case, this unit is light in weight and compact in design. The motor is rated at 1/3 HP and the pump is self-priming and permanently oiled.

The electric aspirator has a preset vacuum of 17 inches and requires no water attachments or expensive plumbing additions. The unit comes complete with plastic and rubber tubing.

**R-ASPIELEC**  electric aspirator

#### PORTABLE ELECTRIC ASPIRATOR

This efficient portable electric aspirator is a convenient addition to any preparation room. Low water pressure or inadequate plumbing will not hurt the operation of this machine. It operates in full accordance with local ordinances.

**R-ASPIPORT**  portable electric aspirator

The Frigid Embalming Machine Features:

- **Embalm with your fluid of choice.** The Frigid Ultra-Sonic has the ability to utilize the harshest products on the market, even phenols and high index cavity fluids. Embalm worry-free!

- **Patent-pending Mix/Self-Clean** port ensures a consistent mixture in your formula and reduces the threat of separating fluids.

- Custom-designed laboratory-strength **Borosilicate Glass tank** will not discolor, cloud or crack over time.

- **Patent-pending Smart Lid** provides a quick and easy way to pour fluids into the tank while reducing embalmer exposure to embalming solution fumes.

- **Ultra-Sonic flow sensor** detects blockages and flow changes immediately in the system and shows up on the digital display.

- **Digital displays** indicate precise pressure and flow data which is controlled by the embalmer. Available in Imperial or Metric units.

- **Pressure range:** 0 – 100 psi (0 - 689 pascals)

- **Flow range:** 0 – 80 oz/min. (0 - 2.36 litres/minute)

- **Five distinct modes:** Off/Gravity Embalm, Mix, Clean, Inject and Pulse (24 pulses per minute).

- **Clearly visible Imperial/metric graduated tank** with max capacity of 3 gallons or 12 Litres, respectively.

- **Includes high pressure hose.**

Specifications:

- **Dimensions:** 15.2” W x 19.3” H x 14.3” D (38,6 x 36,3 x 49 cm)

- **Weight:** 40 lbs (18 kg)

- **Available** in both 120 Volt & 220 Volt

- **2 year warranty**
PROTECTIVE COVERS

**NEOPRENE BIB APRON**
Reuseable neoprene bib-style apron. Lightweight and tear resistant with hemmed edges. Protects against chemicals and oils. Easily wiped clean. Available in black or green and in various sizes from 38 inches (97 cm) to 56 inches (142 cm) in length. Custom sizes also available.

- 5-APRONEOP38 black apron
- 5-APRONEOPG38G green apron

**BARRIER GOWNS**
Provides full-length, fluid resistant coverage. Constructed with a single piece of impervious plastic, it has one thermal impulse seal for the ultimate in safe and worry-free protection. Meets most OSHA requirements.

- 2-GOWNBARR-U blue, universal, 15 per box
- Also available in poly-coated yellow with thumb loops.
- 2-GOWNBARR-XLY yellow, L/XL 10 per bag

**FLUID-RESISTANT SMS GOWNS**
Classic Fluid-Resistant SMS gowns are breathable, flexible and strong enough for tough duties. Made from medium-weight fluid-resistant 4-Ply SMS material. Gowns feature strong seams to withstand fluids. Gowns are generously sized for full coverage and flexibility and are constructed with waist and neck ties to ensure secure fit.

- 2-GOWNSMS-MD 10 gowns/bag

**NON-SLIP SHOE COVERS**
Our shoe covers are manufactured from lightweight polypropylene and feature non-skid soles. Elasticity allows cover to conform to your shoe better. One size fits all.

- 2-COVESHOE universal, 100 per box
- 2-COVESHOLE-L universal, 100 per box, size large

**BOUFFANT HAIR COVERS**
All caps comply with NFPA standards and are latex-free. Double-stitched elastic band keeps caps flat and comfortable on the forehead. Economy Cap. Lint Free. Made of Spunbond Polypropylene.

- 2-COVEHAIR-21B blue, 100 per box

**SANAPRON APRONS**
The layer of paper added to these aprons make them absorbent while lending them increased durability. 25” x 40”.

- 2-SANAAPRO 25 per box
PROTECTIVE MASKS

N95 FLAT FOLD ADJUSTABLE RESPIRATOR MASKS
- NIOSH Approved N95 respirator mask filters airborne particles.
- Cellulose inner and outer facings.
- Flat fold style with adjustable nose and chin wire for a comfortable fit.
- One size fits most

2-MASKN95A 35 masks/box

FLUID-RESISTANT SURGICAL FACE MASKS WITH EYESHIELD
- Fluid-Resistant Surgical Masks with Eyeshield offer full protection against fluids at either the ASTM F1862 160 mmHg or 120 mmHg Fluid Resistance Levels while attached eyeshield offers protection over eyes or glasses.
- Additional layer on the NON27710 series provides higher fluid protection while cellulose inner facing found on both fluid resistant level options creates a soft, cool and non-irritating environment for comfort.
- An anti-fog strip of comfortable, soft foam prevents eyeglasses from fogging, thus ensuring optical clarity while ties create secure attachment.

2-MASKEYE EACH available each

FLIP-UP FACE SHIELDS
Our face shields offer superior protection with maximum convenience. The clear shields easily snap on to the accompanying headgear. The headgear is adjustable to fit head sizes 6-1/2 to 8.

2-FACEFLIP available each

FORMALDEHYDE MONITOR
Monitor hazardous vapors in the workplace with these dosimeters. Helps monitor exposure to hazardous chemicals and facilitate compliance with state and federal laws and OSHA and JCAHO standards.

R-FORMSEN includes one long term and one short term sensor

SURGICAL CONE-STYLE FACE MASK
- The cone-shaped mask enables easy donning and is held away from the nose and mouth for comfort and protection.
- A malleable nosepiece allows a custom fit.
- Designed with comfortable, rounded edges.
- BFE > 99

2-MASKCONE 50 masks/box

STANDARD SURGICAL MASK
- MEDLITE surgical mask is designed to be highly breathable and lightweight, providing necessary protection while creating a cool and comfortable environment.
- Polypropylene outer facing provides a soft, fluid protection barrier while the cellulose inner facing assures comfort and breathability.
- A full-width nosepiece guarantees proper fit.
- BFE > 98%, PFE > 97%

2-MASKSURG 50 masks/box

N95 CONE-STYLE PARTICULATE RESPIRATOR MASKS
- N95 approved particulate respirator meets NIOSH and CDC guidelines for TB exposure.
- Micro filter medium protects against micron-size particles.
- Double band holds mask firmly in place for maximum protection.
- All respirators must be selected, fitted and maintained in accordance with OSHA and other applicable regulations.
- Available in large/medium and small.

2-MASKN95 20 masks/box

3M FORMALDEHYDE RESPIRATOR
Our dual cartridge respirators protect from formaldehyde fumes without abandoning comfort. The Masks are lightweight with uniform weight distribution. Cartridges can be replaced. NIOSH approved.

2-FORMRESP Respirator
2-FORMRESP-C Replacement cartridge

- R-STRALIFT(SJ) Set of two
BODY TRANSPORTATION

FUNERAL SERVICE TRUCKS

FRIGID MODEL 1491
UTILITY TRUCK

The Frigid 1491 Utility Truck is a rugged workhorse designed to give you years of heavy-duty service. Its welded steel frame and extra heavy-duty forks allow this truck to move even the heaviest loads. The 1491 is built with four 8” (20 cm) wheels allowing for easy maneuverability over bumps and cracks. Each post is topped with a rubber bumper to protect load from scratches. The following dimensions are standard, but can be changed to your specifications.

Dimensions: 37” x 20” x 20” (94 x 49 x 49cm)
Weight: 45 lbs. / (20 kg)
Capacity: 1000 lbs. / (454 kg)

Available as:

3-UTC1491S available each

FERNO MODEL 87

The Ferno 87 Church Truck is a lightweight truck that can be set to 4 different lengths to meet all your needs. The rectangular aluminum tubing has an anodized finish that is easy to clean. Its 6” rubber tires roll over obstacles easily and silently. Available with foldout handles to help you carry over large obstacles such as curbs.

FERNO MODEL 88

The Ferno 88 Church Truck is for those who like a smaller truck. It looks and performs like the 87, but it is shorter in length and has only 3 positions. Available with foldout handles.

R-TRUC88S silver
R-TRUC88B bronze
R-TRUC88BG blue-gray
R-TRUC88G gold
R-TRUC88H with fold-out handles
R-DRAPFERN(88) drape, specify color

MORGUE TABLE

FRIGID DAVINCI MORGUE TABLE

The Frigid Morgue Table incorporates a full-size top of tough, highly chemical-and stain-resistant fiberglass with provision for headrest and drain connection. The top is slightly bowed across its width to help direct runoff towards the extra deep trough. The table is supported by a customized sturdy, tubular aluminum base from Ferno, that is fully adjustable on both ends for perfect height and drainage. Comes complete with base, top and drain spout.

Dimensions:
79” x 30” x 35” (max height) (200 cm x 76cm x 89 cm)
79” x 30” x 29” (min height) (200 cm x 76cm x 74 cm)
Weight: 127 lbs. / (57 kg)
Capacity: 700 lbs. / (317 kg)

Available as:

3-TABL900 table complete
4-TABL900D extra drain spout
THE ORIGINAL. THE BEST.

Frigid Fluid Co. revolutionized the death care industry when it introduced the automatic casket lowering device to market in 1914.

Since its appearance, Frigid has continued to improve upon the original model by adding new features and upgraded materials allowed by advancements in metallurgy and machining techniques.

Frigid devices continue to be manufactured and hand-assembled in Illinois to provide direct quality control and adherence to high standards.

Frigid remains the market leader of precision lowering devices constructed with the highest quality materials for durability, reliability and longevity of operation.
STREAMLINED DESIGN, INHERENT QUALITY AND MASTER WORKMANSHIP, PRICELESS INGREDIENTS YOU FIND ONLY IN A FRIGID DEVICE.

ALL FRIGID LOWERING DEVICES FEATURE:

• Sealed, self-lubricating bearings
• Modular design provides compact size for transport and storage
• High quality tempered steel and bronze precision gearing
• High quality ISO-9001 certified stainless steel tubing
• Sturdy, polished aluminum heads for fail-safe housing of all moving parts
• Custom, hand-made, governor to maintain a smooth, controlled lowering speed
• Adjustable braking system for a variable number of lowering speeds
• Stainless steel hand brake for simple lowering release
• Quiet, durable, low maintenance construction
• Resists corrosion and maintains appearance
• Engineered for reliability, strength, and longevity
• 12-month warranty on parts and labor
IMPERIAL® LOWERING DEVICE

3-IMPS502SK

The Frigid Imperial casket lowering device has become a favorite among customers because of its quality of construction and its assurance of performance.

SPECIFICATIONS

Assembled size: 58” L x 22” W x 7.5” H / (147.3 x 55.9 x 19.1 cm)
Telescoping to: 92” L x 34” W x 7.5” H / (233.7 x 86.4 x 19.1 cm)
Max load bearing: 800 lbs / (362 kg)
Total unit weight: 90 lbs / (40.8 kg)

DEVICE PACKAGES

BASIC PACKAGE - 3-IMPS502SK
Imperial device, stainless steel crank handle, set of straps.

PLACER SET PACKAGE - 3-IMPS502SP
Imperial device, stainless steel crank handle, set of straps, placer set.

3-IN-1 PACKAGE - 3-IMPS504S/3-IMPS506S
Regular or telescoping stand, Imperial device, stainless steel crank handle, placer set, and stand drape.

FUNERAL DIRECTOR OPTION - 3-IMPS503SK
The Funeral Director option features the same specifications as the Imperial device with the addition of long rails that are designed to break apart and fold in half making it easy to fit in a hearse.

Folded dimensions of each half: 42” x 10” x 8”
Available in all packages
The Frigid Master casket lowering device is a high-grade lowering device specifically designed for everyday heavy-duty use. The load bearing components of the Master are twice the size of those found in the Imperial device, making it the safest and most durable device manufactured by Frigid.

INFANT/URN LOWERING DEVICE

3-IMPINF/URN-3

The Infant/Urn lowering device offers the strength and beauty of our traditional casket lowering devices, yet in a unique smaller version. The Infant/Urn device incorporates the same easy release hand brake mechanism as our casket lowering devices, allowing for a one-man operation.

STURDY ALUMINUM AND STAINLESS STEEL BODY

- Resists corrosion and maintains appearance.
- Provides strength and durability.

RUGGED MECHANISM

- Quality steel and bronze – not nylon or plastic.
- Precision tooled for smooth, quiet operation.
- Engineered for reliability and longevity.

MODULAR DESIGN

- Compact shipping and storage.
- Easy assembly and disassembly.
- Simplified cleaning and maintenance.

STREAMLINER MOBILE STAND AND CASKET CARRIER
Regular: 3-STRM614 / Oversized: 3-STRM614O

The Streamliner is designed to work best when paired with a Frigid casket lowering device with placer set, giving you a gravesite setup that is both safe and completely mobile.

STREAMLINER FEATURES
• The Streamliner enables your setup to remain intact between burials.
• The tow bar is removable, allowing skirting to be attached.
• The Streamliner will relieve strain on the pallbearers' backs, while two wheel brakes and wheel locks ensure that each burial takes place without mishap.
• Consistent use of the Streamliner Mobile Stand & Casket Carrier will lengthen the life of your Frigid lowering device by protecting it from drops and other accidents.
• The Streamliner ships complete with tow bar and one pair of steel channels. The drape comes in three colors and is available at an extra charge.
• Oversize option available. Frame is 6 inches wider to accommodate the Master Oversize device.

SPECIFICATIONS
Dimensions: 112" x 53" x 23" / (284.5 x 134.6 x 58.4 cm)

STANDS & ACCESSORIES

DEVICE STANDS

FRIGID REGULAR STAND
The original lowering device stand provides a sturdy base for the display of your casket lowering device during service. It stands 14” high and is made with stainless steel corner post tubing. All other tubing is polished aluminum. Weight: 50 lbs / (23 kg).

3-STD1011S

FRIGID TELESCOPING STAND
Constructed of the same materials as the regular lowering device stand, the telescoping model is fully adjustable for hillside setup. One end of the telescoping stand adjusts from 10” to 18” (25.4 cm to 45.8 cm) while the other end adjusts from 14” to 26” (35.6 cm to 66 cm). Weight: 95 lbs / (43 kg).

3-STD1007S

DEVICE DRAPES

FOUR PIECE SINGLE-FACED
Designed for our non-telescoping device stand.

5-DRP1062

FOUR PIECE DOUBLE-FACED
Twice the thickness of Single-Faced drapes, the plush side of the material is visible both on the outside and inside of the drape. Our Double-Faced drapes for telescoping stands are equipped with an internal belt mechanism which allows them to be tapered to conform to the uneven ground in a hillside setup.

5-DRP1062D Regular Stand
5-DRP1071 Tele Stands

ONE PIECE WRAP AROUND
One piece wrap around drapes feature a spring and Velcro tabs. It can be used on a regular stand to speed up setup time and increase efficiency.

5-DRP1063 Single Faced
5-DRP1063D Double Faced

Device drapes are available in burgundy, blue and green Hi-Lustre drapery material

FULL DEVICE COVER
Save dollars in repairs and re-polishing by protecting your investment. The Frigid Full Device Cover is made of heavy-duty canvas and reinforced with extra heavy-duty canvas at the device corner heads. Featuring four handles for easy carrying, this is an effective way to keep your device in tip-top shape!

5-COVEBOX-I Imperial
5-COVEBOX-M Master
FRIGID DEVICE HEAD COVERS
The perfect product to keep your Frigid lowering device looking like new! Comes in sturdy black plastic and green canvas, they fit snugly over the corner heads to protect against scratches and wear. Sold in sets of 4.

CONNECTING SHORT STRAPS

Custom sizes are also available for straps longer than 30 feet / (9.1 m).

Our straps have a proven breaking strength of **2000 pounds** / (907.2 kg) each.

LOWERING DEVICE REINFORCED STRAPS

Request “Reinforced” straps when ordering

Frigid reinforced straps are made from 3 7/8” (9.8 cm) wide, poly heat-sealed, nylon webbing. The straps are center reinforced with double-ply material along the middle 5 feet of the strap to provide extra security and support for heavy caskets. Available in both green and black colorways and can be purchased by the long strap or in sets in any desired length.

SAFETY STRAPS, CHAINS & BARS

CASKET SAFETY STRAP, CHAIN AND BARS

1. **SAFETY STRAP** - 5-STR760
Our safety straps are made of the same poly heat-sealed nylon webbing as our lowering device straps. Safety straps include zinc plated steel hooks on both ends. Overall length of hook and strap is 56” / (142.2 cm). Strap alone measures 48” / (121.9 cm). Available in green and black and also in custom lengths.

2. **SAFETY CHAINS** - 3-SAFC766
Each of the two steel machine chains are rated as a 545 lbs. load capacity. Overall length of hook and chain is 68” / (172.7 cm). Chain alone measures 54” / (137.2 cm).

3. **POLISHED SAFETY BAR** - 3-SAFB767
1.5” / (3.8 cm) wide and 3/8” / (0.95 cm) thick polished stainless steel safety bar. The bars will accommodate up to a 38” / (96.5 cm) lowering device width. Safety bars provide a level, accident free presentation of the casket during the graveside service. Three safety bars are recommended to support a casket.

4. **TELESCOPING SAFETY BAR** - 3-SAFB766
Stainless Steel telescoping safety bar telescopes to accommodate a variety of lowering device widths. Safety bars provide a level, accident free presentation of the casket during the graveside service. Three safety bars are recommended to support a casket.
FRIGID URN DISPLAY STAND
The Frigid Urn Display Stand adds elegance to any display. Its large 30" x 30" (76.2 x 76.2 cm) surface allows for urns of any size and shape. The following dimensions are standard, but can be changed to your specifications.

- **Dimensions:** 30" x 30" x 36" / (76.2 x 76.2 x 91 cm)
- **Weight:** 20 lbs. / (9 kg)
- **Capacity:** 200 lbs. / (91 kg)
- **D-URNDISP01** available each
- **D-DRP1061** drape, specify color

FRIGID HI-LUSTRE CHAIR COVERS
Our chair covers are made of traditional Hi-Lustre fabric. Machine-wash or dry-clean. Please specify fabric color (burgundy, green or blue), chair style, and size when ordering. Monogram available.

- **5-COVECHAI-G** Green
- **5-COVECHAI-R** Red/Burgundy
- **5-COVECHAI-B** Blue

CHAIR COVER STORAGE BAGS
Store chair covers together in a heavy duty canvas bag with draw-string top.

- **5-BAGCOVE4** bag for 4 chair covers
- **5-BAGCOVE8** bag for 8 chair covers
- **5-BAGCOVE12** bag for 12 chair covers
- **5-BAGCOVE16** bag for 16 chair covers
- **5-BAGCOVE20** bag for 20 chair covers

CHAIR STORAGE BAGS
Store folding chairs in increments of four, five, six, or eight. Makes for easy transport. Each bag is constructed of heavy-duty canvas with heavy duty nylon web handles and closures.

- **5-BAGCHAIR4** bag for 4 chairs
- **5-BAGCHAIR5** bag for 5 chairs
- **5-BAGCHAIR6** bag for 6 chairs
- **5-BAGCHAIR8** bag for 8 chairs

We manufacture our own grass so if custom sets or sizes are needed just let us know, we’re happy to help!

GRAVESITE GRASS SETS

Frigid’s artificial grass is made of a very strong, non-absorbent fibrous material that is easy to keep clean and will last for years of use. The grass features a high-quality duck canvas binding to help the grass blend naturally into the gravesite setup.
FRIGID FLUID COMPANY
AN OFFICIAL SUPPLIER OF STERIL PREMIUM TENTS

THE MONET
The Monet is a 15’ x 15’ / (4.57 x 4.57 meters) quick assembly, folding tent. All metal components and superior fabric top. Reinforced with top grain cow hide for increased durability with 85% stronger yokes and flanges for extra support. Snug fit upper with dependable corner pieces. Guaranteed to be rust-free. Made in America.

R-TENTMONET  15’ x 15’ Tent / (4.57 x 4.57 meters)

OVAL FUNERAL TENT
Oval Funeral Tents are known for their quality of construction and ease of assembly. Available in various colors and designs. Offer other modular options. Made in America.

R-TENTOVAL

ROLL AROUND
The Roll Around is a 14’ x 16’ (4.27 x 4.88 meters) Canvas Funeral Chapel Tent on wheels. It is simple to install and all parts are assembly-ready, with convenient zinc plated components to combat corrosion. Comes with guaranteed no-flat tires that are also zinc plated for increased durability. The Roll Around is light weight and easy to use by hand. It also comes equipped with a universal hitch and a possible reversible tow package with upgrade. Available in a variety of canvas colors, comprised of top grain leather, reinforced canvas and galvanized steel. Made in America.

All markers are available imprinted with your firm’s name.
### SPARTAN VASES
Half-exposed when open, the SPARTAN vases are available in three finishes and choices of a zinc casing or a 4 1/2" diameter polycasing. Extra-heavy die-cast zinc vase will not float when reversed in casing even if turf is flooded. Vase measures 7 3/4" high x 4" diameter.

- **Zinc Vase & Casing Bronze Enamel**
  - R-VASE7BP - polycasing
  - R-VASE7BZ - zinc casing

- **Zinc Vase & Casing Grey Enamel**
  - R-VASE7GP - polycasing
  - R-VASE7GZ - zinc casing

- **Zinc Vase & Zinc Casing Bronze Textured**
  - R-VASE7TT - zinc casing

### GRECIAN VASES
Fully exposed when open, the GRECIAN series case vases are available in four handsome finishes and include a 5" diameter stainless steel casing with a locking ring at the top. Guard chains are optional. Vase stands 8 1/2" high when open.

- **Zinc Vase & Stainless Steel Casing - Brown Epoxy**
  - R-VASE9ES - vase & casing

- **Zinc Vase & Stainless Steel Casing - Bronze Powder Coat**
  - R-VASE9BS - vase & casing

- **Zinc Vase & Stainless Steel Casing, - Grey Powder Coat**
  - R-VASE9GS - vase & casing

- **Zinc Vase & Stainless Steel Casing - Bronze Textured**
  - R-VASE9TS - vase & casing

- **Zinc Vase & Stainless Steel Casing, - Grey Powder Coat**
  - R-VASE9GS - vase & casing

### UTILITY VASES
Simplicity means economy and durability with these ground level vases. Use with single or double wall polycasings to add longevity to the units.

- **Galvanized Vase & Casing, 7" depth**
  - R-VASE1GG7 - vase & casing

- **Galvanized Vase & Single Wall Polycasing, 8" depth - Grey**
  - R-VASE2GP8 - vase & casing

- **Galvanized Vase & Casing, 8" depth**
  - R-VASE1GG8 - vase & casing

- **Galvanized Vase & Double Wall Polycasing, 8" depth, - Brown**
  - R-VASE3GP8 - vase & casing

### THRIFTY VASES
Available as ground level or half-exposed when open, the THRIFTY series cast zinc vases provide maximum economy with durability. Handy finger holes also facilitate bouquet tie-downs for high wind seasons. Vase measures 7 3/4" high x 3 3/4" diameter. Casing will fit into a 4 1/4” marker coring.

- **Zinc Vase & Single Wall Polycasing, - Bronze Enamel**
  - R-VASE4BP - half-exposed
  - R-VASE8BP - ground-level

- **Zinc Vase & Single Wall Polycasing - Bronze Textured**
  - R-VASE4TP - half-exposed
  - R-VASE8TP - ground-level

- **Zinc Vase & Single Wall Polycasing, - Bronze Enamel**
  - R-VASE4BP - half-exposed
  - R-VASE8BP - ground-level

REPAIR & RESTORATION

Let our Certified Repair Technicians make your lowering device look and perform like new.

If your Frigid Lowering Device is in need of repair, let us do the work. Our Certified Repair Technicians use the same Frigid parts that go into new lowering devices, ensuring your device will work like new. We can also re-finish your lowering device so that it looks as good as the day you bought it. Give us a call, and we’ll take care of the rest.

CONTACT US AT 708-836-1215 AND WE WILL:

• Send you a shipping box, if needed.
• Email a label to have the device sent to our shop.
• Send you a free quote with an itemized list of parts and repairs.
• Repair and return your like-new device.

REFINISH YOUR DEVICE TODAY!

SPEEDY METAL POLISH

Speedy Metal Polish is the best metal polish for Frigid Casket Lowering Devices and will bring back your device’s classic shine. Easy to apply with a cloth (or 4/0 steel wool if heavy oxidation). Effective against tarnish and oxidation.

2-SPEEMETA

FRIGID LOWERING DEVICE GREASE

Recommended grease for Frigid Casket Lowering Devices. Use to protect gearing from rust and corrosion and to keep device running smoothly and quietly.

3-DEVGRE  32 oz. jar / 0.91 kg

FRIGID LOWERING DEVICE SPEED ADJUSTMENT TOOL

Frigid’s speed adjustment tool is designed to easily adjust the governor brake studs of the casket lowering device. This is an essential tool for performing regular maintenance on the device. Made of solid stainless steel, the tool is built to last. Check Frigid Fluid’s website for a video on how to use!

4-GOV T

COMPLETE REPLACEMENT ENDS

Great to have on hand as a backup if you need to send your device in for repair or need a quick replacement. Easy to switch out with your old device using only two screws.
